Congratulations!

Thank you for applying for the Harvard Health Systems Innovation Lab's  
**Hackathon 2026** on "**Building High-Value Health Systems: Leveraging  
Artificial Intelligence.**" This email confirms that your submission was successfully  
received.

Take a moment to appreciate that this marks your first step in becoming part of the world's largest health systems hackathon—spanning all continents (Africa, Asia, Australia, Europe, the Middle East, North America, and South America), with over 36 collaborating countries and 40 hubs worldwide.

**Event Details:**

**Dates:** Friday, 10th April – Saturday, 11th April 2026

**Theme:** Building High-Value Health Systems: Leveraging Artificial Intelligence

Please carefully review the instructions below to ensure you are well-prepared for the hackathon and have a rewarding experience on the event day.

- Once registrations close in early March, selected applicants will receive a confirmation email with further instructions.
- If you are applying as part of a team, please make sure that all team members are individually registered for the Hackathon.
- If you are applying individually, without a team, you will be connected with other participants on Slack. This will give you the opportunity to form teams based on your expertise and interests before the start of the Hackathon.
- Once all teams are finalized, they will be matched with local mentors who will begin guiding them ahead of the hackathon day.
- All subsequent communication and activities will be conducted by the organizing team of your participating hub through Slack, leading up to the Hackathon.

- Please note that travel expenses are not covered by our program. Each accepted participant is responsible for covering their travel costs to attend the in-person Hackathon in the hub you selected during the application.

In the meantime, thank you for being part of the Harvard Health Systems Innovation Lab's Innovators community! We wish you the very best and look forward to learning more about your venture.

Warm regards,

The Harvard Health Systems Innovation Lab Hackathon organizing team  
& Prof. Rifat Atun
